

# MOVING SKATES

These 4 Tonne rotating transport dollies are ideal for moving heavy loads in confined areas. Easy to use and fitted with 5 non marking polyurethane wheels they are of heavy welded construction and have thick top plates, fitted with turntables for easily moving heavy loads in any direction. Loads can easily be moved sideways with these 360 degrees rotating industrial skates. The ultimate heavy duty machine skates! An optional extra is a steering/pulling handle, making them even easier to manoeuvre!
